INTRODUCTION

LeaderTrack provides development pathways for those wanting to be equipped for leadership in a local church.

Combining practical, relational and academic aspects, participants are given skills in ministry planning, building teams, and strategy. They also grow in self-leadership and spiritual formation through the various learning pathway options and supervision.

Cohorted learning is involved in most streams with students from throughout Qld joining for various events throughout the course of the year.

There are Under-graduate Certificate and Diploma awards available through Australian College of Ministries (ACOM), with fee-help available for those units. Other fees related to non-academic elements of LeaderTrack are payable separately.

Other compulsory modules and experiences are added throughout the 1st year. These include ACOM facilitations; onsite residentials and weekend retreats.
